

Cat.No.8092-00

Temperature Indicator Model SK-M350-T

Model

SK-M350-T

Digital temperature indicator with LED (height of character: 57mm) display. Angle of display panel is changeable.

No. 8091-10 model SR-56A-015 probe is suitable for air to measure air temperature. Various types of temperature probe can be procured for ordering.

Features

- * 7 segment LED: height of character: approx. 57mm
- Angle of display panel is changeable
- * Input: PT100Ω (three -line type)
- * Alarm function (upper /lower limits) is available at option.
- * Buzzer, rotating warning light and etc. can connect with.

Specifications

Display	7 segment LED height of character: 57mm
Measuring range	Temperature: -50.0 to 199.9 °C Display accuracy: $\pm (0.3 + 1 \text{ digit})^{\circ}\text{C}$
Input	PT100Ω three-line type
Operation ambient	0 to 50°C less than 85%rh (no condensing)
Power requirements	12VDC (exclusive AC adapter is attached) AC adapter primary side: 100 to 240VAC 50/60Hz 0.3A Secondary side: 12VDC 1A
Dimensions & weight	(W)350×(H)165×(D)85mm approx. 3.0kg
Accessories	AC adapter
Options	Alarm functions (upper/lower limits) * Buzzer and rotating warning light can connect with.
