

Cat.No.2180-00

Bimetal Thermometer for Grain

An ideal, easy-to-read thermometer for temperature management of grain at granaries or storages.
The colored scale makes it convenient to recognize the suitable temperature zone.

Specifications

Measuring range	-10 to 50°C
Accuracy	±1°C
Min. graduation	1°C
Materials	Fe-Ni plating, Aluminum, Glass, Stainless steel
Dimensions	Dial: Ø80 mm, Sensing stem: Ø8 x (L)250 mm
Weight	approx. 122 g
