PRODUCT DETAILS

PRODUCT VIDEO

Application:

Model SQ-100 Metallographic specimen cutting machine can be used to cut various metal and non-metal materials so as to get specimen and observe the metallographic or lithofacies structure. It has cooling system so as to clear up the heat produced during cutting and avoid to burn the metallographic or lithofacies structure of specimen because of superheat. This machine features easy operation and reliable safety. It is the necessary specimen preparing instrument for using in factories, scientific research institutes and laboratories of colleges.

2. Main specifications:

Model	SQ-100
Max. cutting diameter	100mm
N.OOHOO MEHOOO	T-slot worktable, dual drive vises
	Outside cooling system
Power supply	three phase four line (380v/50Hz)
Motor	Y2-1001-2-2 3 kw
Rotate Speed	2800r/min
Abrasive wheel	¢ 250X2.5X32mm
Cutting machine size	280X260mm
Dimension	820x780x650mm
Weight	95kg
