

Exhalation Valve Air Leakproofness Tester GT-RA12-2

Standards:

GB 19083, GB 2626, GB/T 32610, EN 149, NIOSH - 42 CFR Part 84

Features

1. Specialized air leakproofness time test device, solving the problem of time inaccuracies by using a stopwatch to test.
2. Exhalation valve Air Leak Proofness Tester High precision imported pressure

difference gauge.

3. Convenient and efficient pressure adjusting device.

Key Specification

Model	GT-RA12-2
Bumper Capacity	≥5L
Micro Pressure Difference Gauge Range	0~2000Pa, Accuracy 1Pa
Flowmeter Range	0~1000ml/min, Accuracy 3%
Pumping Rate	2L/min
Power Supply	AC220V 50HZ 150W
Dimensions	500×250×450mm
