

Remote Sensing Dial Thermometers Model LB-100S (Stock item)

Model

LB-100S

LB-100S series remote sensing dial thermometers (Stock item)
6 different measuring ranges are provided. Heavy-duty industrial thermometer that made of SUS 304 stainless steel (case, sensing stem, lead wire and screw)

Specifications

Mutual Specifications for LB-100S Series

Case	110 mm dia. Materials: Stainless steel (SUS304) and glass (for window)
Dial	100mm dia. Material: SUS304
Sensing stem	12mm dia. x 100mm (L) Material: SUS304
Lead wire	3m (L) Material: SUS304
Screw	R(PT)1/2 Material: SUS304
Waterproof properties	Compliant to JIS C 0920 IPX1
Weight	1.3 kg

Cat. No.	Measuring range	Div.
3000-55	-50 to 50°C	2°C
3000-05	0 to 50°C	1°C
3000-01	0 to 100°C	1°C
3000-15	0 to 150°C	2°C
3000-20	0 to 200°C	5°C
3000-30	0 to 300°C	5°C
3400-50 (*)	0 to 500°C	10°C

(*) SB-100S: Mercury is used for the sensing element.

* Other specifications are available by order. Please contact us for more information.
