Application:

Liquid Leak Test Needle is used to detect whether the liquid-filled toys have leakage after applying 5N force through a steel needle.

Standards:

- EN 71-1
- ISO 8124-1
- GB 6675-2

Dimensions

External Dimensions:	
150 * 40 * 15 mm (L*W*H)	
Package Dimensions:	
240 * 95 * 35 mm (L*W*H)	
Gross Weight:	
1 kg	
Net Weight:	
0.7 kg	

Key Specifications

Model	GT-M51
Screw threads	M6P1
Material	Stainless steel
Steel needle	Diameter: (1±0.5)mm
	Radius of the top: (0.5±0.05)mm
Test force	5N
Weight	20g

Application Industry

All kinds of liquid-filled toys can be tested on the Liquid Leak Test Needle.
