

IEC 61672 Sound Level Calibrator GT-AWA6221A

Product Introduction

Application:

Sound level calibrator is mainly used for the absolute acoustic sound pressure calibration of microphones, sound level meters and other acoustic measuring instruments. In line with GB / T 15173 and IEC 60942 for the Tier 1 Calibrator technical requirements. Sound pressure compression type, good stability. Battery-powered, ease of use.

Standards:

IEC 61672 Class 1

Key Specifications

Model	GT-AWA6021A
Nominal SPL	94 dB & 114 dB
Frequency	1000Hz±10Hz
SPL Accuracy	Class 1, ±0.3 dB
Total Harmonic Distortion	≤1 %
Power	Battery 1 x 6F22
Operating Temperature Range	-10 °C~+50 °C
Dimensions	φ53×117(mm)
Weight	100Kg
